

INCIDENT MANAGEMENT SITUATION REPORT
 SUNDAY, AUGUST 10, 1997 - 0900 MDT
 NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION: Large fire activity continued in Southern California, necessitating the mobilization of a Type II Incident Management Team. The Western Basin experienced increased large fire activity. Resource mobilization through NICC remained minimal. Very high and extreme fire indices were reported in California, Nevada, Oregon, Arizona, and Minnesota.

SOUTHERN CALIFORNIA LARGE FIRES:

An Area Command Team (Edrington) is assigned to the Los Padres National Forest.

LOGAN, Los Padres NF. A Type I Incident Management Team (Kohut) is assigned. This fire is 20 miles east of Santa Maria, CA. Structure protection continues in communities to the south and west of the fire. Poor access and steep terrain continues to hamper suppression efforts. Cultural resources, watersheds, and structures are currently threatened.

HOPPER, Los Padres NF. A Type I Incident Management Team (Greenhoe) is assigned. This fire is located 5 miles north of Fillmore, CA. Firefighters made good progress toward containment objectives. Threats to the communities of Fillmore and Piru have significantly decreased. Steep terrain and limited access continue to create control problems.

CHOKER, Sequoia NF. A Type II Incident Management Team (Battreal) is assigned. This fire is located in the Monarch Wilderness, approximately 50 miles east of Fresno, CA. Firefighters contained a 50 acre spot fire that was caused by rolling material. The remote location of the fire has required the use of helicopters for tactical and logistical operations.

JACKS, Sequoia NF. A Type II Incident Management Team (Bacon) has been ordered, and will take over the fire today. This fire is 30 miles east of Lake Isabella, in the Kiahava Wilderness. No other information was received.

WESTERN GREAT BASIN LARGE FIRES:

POTOSI COMPLEX, Toiyabe NF. This complex consists of the FLAT and MULE

fires, which are located 30 miles southwest of Las Vegas, NV. Light rainfall aided firefighters in making significant progress toward containment objectives. The Flat fire is currently 70% contained and the Mule fire is 100% contained.

SNOW CREEK, Elko District BLM. This fire is located 70 miles north of Ely, NV.

Firefighters were aided by precipitation over the fire. Torching was confined to the interior portions of the blaze. No significant runs were reported.

WARRIOR, Winnemucca District, BLM. This fire is located 15 miles north of Fern ley, NV. Active fire behavior was observed yesterday, with a 1« mile flame front reported.

HOT POT, Elko District, BLM. The fire is located 25 miles north of Battle Mountain, NV. High winds, flashy fuels and low relative humidities caused the fire to spread at a very rapid rate.

NORTHERN CALIFORNIA LARGE FIRES:

HUFFER, Lassen National Park, NPS. A Type II Incident Management Team (Wood) is assigned. This fire is located east of Viola, CA. Increased relative humidites limited fire activity yesterday. Crews and air support made good progress on line construction. Spot fires up to a mile ahead of the fire were discovered. Helicopters assisted in personnel transportation and logistical support.

				CTN	CTN	PERS				LOST	LOSS	C-T-D
HUFFER	LNP	CA	1,870	50	8/11	567	18	0	6	0	NR	300K

ALASKA LARGE FIRES:

INOWAK, Southwest Area Forestry, Alaska State. Fire activity moderated yesterday due to decreased winds and increased relative humidity. Firefighters observed torching along the southeast perimeter. Air operations were hindered by poor visibility in the vicinity of the fire.

INCIDENT	UNIT	ST	SIZE	%	EST	TOTAL	CRW	ENG	HELI	STRC	EST	\$\$\$
				CTN	CTN	PERS				LOST	LOSS	C-T-D
INOWAK	SWS	AK	582,000	0	UNK	51	2	0	3	3	NR	3.5M

Alaska has 52 other large fires burning for a total of 1,799,015 acres.

NORTHWEST LARGE FIRES:

THREE SPRINGS, Burns District, BLM. This fire is located in the Steens Mountains, 20 miles south of French Glen, OR. Burnout operations conducted yesterday were successful.

OUTLOOK:

California will be mostly sunny with morning fog and low clouds along the coast. A slight increase in relative humidity will be observed today. Temperatures will be in the 70's and 80's in the mountains, the upper 80's and 90's in the valleys, and the 100's in the southern deserts.

Nevada will be partly cloudy in the north and east, with a few afternoon showers and thunderstorms. The southern and western portions of the state will be mostly sunny. Temperatures will be in the 80's to lower 90's in the north, and up to 110 in the southern deserts.

Utah will be partly cloudy with scattered showers and thunderstorms. Temperatures will range from the 70's in the north to near 100 in the south.

Very warm and dry conditions will dominate western Washington and Oregon. Moderate east winds are forecast over the Cascades and coastal mountain range. Isolated afternoon thunderstorms are possible for eastern Oregon and the southern Cascades. High temperatures in Washington and Oregon will be in the 80's to mid 90's.

A storm system over Bristol Bay will produce cloudy skies and periods of rain throughout the interior sections of Alaska. Temperatures will be in the 60's and 70's.

A cold front will move into lower Michigan today, bringing scattered showers and thunderstorms. The upper portion of the state will be partly cloudy and cool. Northern Michigan will have high temperatures in the 60's and 70's, with southern highs between 70 and 80.

Minnesota will be partly cloudy and cool with a chance of showers in the south.

Temperatures will range from 65 to 75 throughout the state.
